

# International Top Talent

**International Top Talent** is looking for

## **Purchaser - Engineered Components**

### **Location: Shanghai, China**

You will work for a private company manufacturing and selling high pressure hydraulic equipment. Your work is to support and capitalize purchasing opportunities in China. You will work for the company's purchase office which is part of the China office and fall under full responsibility of the purchasing department in Europe.

### **Your responsibilities as a Purchaser**

As a purchaser, you have the following responsibilities:

- Understand and purchase engineered components, castings, forgings and synthetic parts, final products and promotional items
- Select suppliers, set up and maintain a good supplier network and relationships and develop supplier performance improvement plan
- Do supplier research, negotiate prices and set up contracts, purchase agreements and other related documents
- Do overall supply-chain planning and meet the on-time delivery objectives
- Do quality control
- Identify and implement cost reduction

### **Are you the one we are looking for?**

- University degree in Mechanical Engineering
- Additional commercial education or extensive commercial experience is a big plus. Study background abroad in Europe or in the USA is preferred
- Knowledge on purchasing process and understanding of its risks and opportunities in the industry are needed
- 3-6 years working experience in purchasing of engineered components and strong technical know-how
- Good social and communication skills
- Fluent English skills
- Good team player and able to work independently

### **Benefits**

You will get a competitive salary and good benefits. On-job training will be provided by employer.
