

International Top Talent

International Top Talent is looking for

PhD and post doc Candidates in Polymer Science

Location: The Netherlands, Europe

You will do a PhD or post doc research in the field of polymer science/chemistry. You will work for a key European polymer innovation and research centre in the Netherlands. This centre links the scientific skills of university research to industrial needs for innovation in the area of polymer science. Research will be conducted at the main technology universities in the Netherlands. You have strong interaction with other European top rated universities and R&D departments of European multinationals that strive for innovation.

The duration of your PhD research is four years, the duration of the post doc research is two years.

Are you the one we are looking for?

- You have a Master of Science degree in physics or chemistry with a specialization in organic polymers, physical chemistry, chemical engineering (focused on polymers processes), material science or polymer science
- You have a strong interest in polymers
- You are eager to conduct your PhD research abroad
- You have good social and communication skills
- You have good English skills
- You show a pro-active approach

Benefits

You will get a good salary and good benefits. We will assist you in the visa application and prepare you for your stay in the Netherlands.
